What is CCRPI?

HB 713 mandates a minimum course of study in career education in grades K-12. To support teachers in fulfilling these requirements, the grade specific career awareness activities listed as an indicator on the College and Career Ready Performance Index (CCRPI) have been developed to assist students with career awareness.

What is CCRPI?

Making successful transitions into satisfying college and career ready options are fundamental tasks for school counselors, teachers, administrators, and advisors. Social skills and the development of workforce readiness behaviors are crucial in career development.

What is CCRPI?

The Georgia Department of Education has developed seventeen (17) elementary career Awareness activities for local school systems to use as a guide to assist with the implementation of the College and Career Readiness Performance Indicators appropriate for the career awareness and career development indices.

What is CCRPI?

Some activities may contain more than one activity to allow for more opportunities to facilitate awareness of the cluster. These activities will assist elementary students with :

- developing sense of self and areas of interest
- developing and acquiring positive attitudes
- developing a sense of career awareness and the relationship with academics and personal interests.
