## **502. Overview.**

Regulations for the Georgia Residency Requirements for State Programs at Private Institutions were adopted by the Board of Commissioners of the Georgia Student Finance Commission (GSFC) for the purpose of determining the residency status of students applying for aid from one or more of the State Programs administered by GSFC. These regulations are primarily used by Private Eligible Postsecondary Institutions located in Georgia to determine the eligibility of their students for certain State Programs and the staff of GSFC.

Any residency requirement included in the regulations that govern a specific State Program, for which a student's eligibility is being determined, shall supersede the regulations of the Georgia Residency Requirements for State Programs at Private Eligible Postsecondary Institutions.

## **509. Appendix – Determining Residency.**

1. Determining a student's Residency status must be based upon the existence and nature of surrounding objective circumstances, which indicate the person's intent to maintain a permanent presence (Domicile) in the State of Georgia. No one factor can serve as full documentation of a person's Domicile. Neither should a predetermined number of factors be required. However, some factors may be given more weight than others.
2. The following indicators may be considered when determining the Domicile of an individual, but this list should not be considered all-inclusive:
  - a. Location of employment;
  - b. Location of voter registration;
  - c. Location of property, including home purchase, and taxes paid thereon;
  - d. State where the individual filed and paid state income taxes;
  - e. Address and other information on federal and state income tax returns;
  - f. State where the person's automobile title is registered and the payment of property taxes or registration fees thereon;
  - g. Address on driver's license or other state-issued documentation and state of issuance;
  - h. Reason for initially coming to Georgia;
  - i. State of issuance for business, professional, or other licenses; or
  - j. Location of checking, savings or other banking accounts.
3. In order to gain eligibility for State Programs, a student must establish Domicile in the State of Georgia and maintain such Domicile for twelve consecutive months immediately preceding the first day of classes of the school term for which he or she is seeking assistance from one or more State Programs.
  - a. The twelve-month period does not begin until the individual has actually established a status of Domicile in Georgia.
4. A person does not have to live in Georgia for any specific period of time before establishing a Domicile in Georgia, nor does just living in Georgia for twelve consecutive months automatically establish a Domicile in the state.

- a. For example, a person may move to Georgia and shortly thereafter he or she may take sufficient actions to establish a Domicile in Georgia. However, he or she would not meet the Georgia Residency requirements for purposes of the State Programs until twelve months later.
