Dear Colleague:

Over the past five weeks, the Georgia Student Finance Commission (GSFC) has conducted our annual trainings around the state. One of the central components of the trainings was the GAfutures website. We appreciate all of you that attended these sessions and especially those of you that provided detailed and critical feedback on the GAfutures website.

Due to continued technology issues combined with your feedback on functionality and design, as well as the challenges of a mid-year transition, we have decided to suspend the launch of GAfutures for the time being. We will take this opportunity to reassess the project, your needs, and the product we hope to deliver to you and your students.

GAcollege411 will remain available with full functionality, including BRIDGE and CCRPI reporting, applications, and college and career exploration. Likewise, the Georgia Career Information System (GCIS), provided by our partners at Georgia State University, will also remain available to current users without fees for the remainder of the academic year.

We are committed to providing you with superior service and a website that is valuable, user-friendly, and stable. To that end, we will continue to update you on the status of this project and assure you that any future plans will include ample notice and training opportunities.

We appreciate your patience and understanding as we continue to work diligently to provide the high level of products and services you have come to expect from GSFC.

If you have questions, please do not hesitate to contact us at 800.505.4732.

Sincerely,

Tricia P. Chastain
